

Dear Parents,

The pre-participation physical exam is a requirement of the TSSAA and MJCA to ensure that your child can participate in athletics in a safe, healthy manner. These physical exams allow us to identify any areas of risk that may lead to an unnecessary injury or illness.

For the 2018-2019 school year we will continue to use an electronic records system for you to complete all of the necessary forms for your child's participation in athletics at MJCA. These forms are accessible from any internet connected device by clicking the link below. Please open the link in a browser other than internet explorer. Please follow the instructions on the Dragonfly flyer.

<https://www.dragonflymax.com/>

There are a few important things to note with this new system:

1. Your child must still have a physical exam AND submit a clearance form from the provider of that exam to MJCA. The form is in the link. I would also advise you to make a copy or snap a picture with your phone in case you need it.

- 2. This form MUST be dated April 15, 2018 or after to be valid for the 2018-2019 school year**

3. The clearance form should be submitted to myself, your coach, or the high school office before the first day of practice for your child's sport or the first day of school (whichever comes first). You can email me a scanned copy and I will print it. High School fall athletes should have this done when we return from dead period July 9<sup>th</sup>. I encourage all other athletes to have this done by the beginning of school. Failure to submit the appropriate forms by the required date will result in your child's participation being restricted.

4. The electronic forms must be completed and signed by both you and your child.

The pre-participation physical exam is a tool for self-evaluation of symptoms and also provides an opportunity to educate you and your child about the risks involved in participation in sport. As such, you should sit down with your child to go through each part of the forms and ensure the information is accurate and detailed.

The electronic system will provide us with a more consistent way to submit appropriate medical forms and should make things easier for you in the years to come. These documents will also be able to integrate into a new documentation system to better track injury trends on campus and introduce injury prevention strategies.

Please keep in mind that this is a new system and there will probably be some glitches. If you encounter a problem, please do not hesitate to reach out to me to resolve this problem. I would also appreciate your feedback on the experience so I can work with the software company to improve the system.

Again, please direct any questions or concerns to my email address ([melissa.freeman@starpt.com](mailto:melissa.freeman@starpt.com)) or reach out to me by phone at (615)-406-6776.

Sincerely,

Melissa Freeman, LAT, ATC

I have examined the above-named student and completed the preparticipation physical evaluation. The athlete does not present apparent clinical contraindications to practice and participate in the sport(s) as outlined above. A copy of the physical exam is on record in my office and can be made available to the school at the request of the parents. If conditions arise after the athlete has been cleared for participation, the physician may rescind the clearance until the problem is resolved and the potential consequences are completely explained to the athlete (and parents/guardians).
